CONSERVATION TIP:
Make time to check household for leaking faucets and running toilets. Running water or even a slow drip can waste valuable quantities of water. Just think, 15 drips per minute can add up to almost 3 gallons of water wasted per day, 90 gallons wasted per month, and 1,080 gallons wasted per year! Check your faucets and showerheads for leaks today!

THERE WILL BE NO PARKING, STOPPING, OR DRIVING ON THE GRASS AND/OR SIDEWALK. THIS IS A LEASE VIOLATION & SUBJECT TO A \$50 FINED.

Quarterly Professional Pest Control:

Area Housing Commission has a contract with a **PROFESSIONAL PEST CONTROL COMPANY** to eradicate roaches and other insects in your apartment. Every 3 months on the 3rd Wednesday of that month, AHC Staff and the Contractor will do the pest control. Each time AHC Managers post your entry doors for this service and it is noted in the **AHC Newsletter. WE NEED YOUR HELP:**

◆ Use a kitchen trash bag in a can or any small plastic bag. Tie up those bags daily and take to the dumpster by someone old enough to place into the dumpsters. Trash cans should be clean. ◆ Do not allow dirty dishes, pots or pans or water to stand in the sinks. ◆ Wipe off stove tops after cooking and do not allow open food, grease to set out on stove tops or counter tops. Keep oven clean of any heavy spills and do not allow food after cooking to stay in the oven. ◆ Do not allow food to be eaten and dropped all over the apartment. Clean up spills on floors.

Thank you, Linda Cotton Housing Inspector

Rodent-Proof your Home

Just like humans, rodents seek warm places during winter months. Some residents are seeing rodents inside their apartments and around buildings. If you have any small cracks or holes around your baseboards or under the sinks, **PLEASE** call and report to the Maintenance Department at 850-435-3211.

Rodents can enter an opening as small as 1/4" wide. Please take all household garbage and place in a tied plastic bag and place it into the dumpsters daily. Please **NO** feeding the birds with bread or other food items on the grounds. This is feeding the rodents **TOO**. Rodents are creatures of habit, very adaptable and will move by following a urine path. Traps and sticky pads will work but have to be removed after each catch. Limit access to food by storing in containers if possible. Remove all dishes and water from sinks daily. A natural way to control rodents is to use 100% peppermint oil on a cotton ball and place under sinks, stove, refrigerator, pantry or closets.
